

Outstanding Design...most of the time, people come to us with just an idea of what they'd like their new home to be like. We have the opportunity to start from scratch and design from the ground up, always keeping the customer's needs in mind. Occasionally our clients own a plan they've developed or found elsewhere with a floor plan that works for them. Then, incorporating some of Scott's ideas, we can build from their plans and give them something unique.

"The rapport I develop with my clients is the key to our success." says Scott Yates, owner of Paragon Homes Inc. "It is my goal to establish a relationship with the clients so that I may build them an aesthetically pleasing home...as well as one that is functional based on their particular needs."

Award-Winning Detail - When Paragon Homes enters the Homearama, we win! No stranger to the word "Excellence," in the 2005 Homearama we won First Place Best Home, Best Designer, Best kitchen and Best Tile awards.
